APSA Survey of Political Science Departments

American
Political Science Association

A Report on the Academic Year 1992-93

APSA Research Grant Program

The Council of the American Political Science Association announces the 1994 small grant program to support research in all fields of Political Science

Scope of Award

Projects should address a significant problem in political science. Proposals must (1) specify research design; (2) state how the project relates to previous research and theoretical developments; and (3) state how the project contributes to scholarship within a field.

Eligibility

Applicants must be APSA members. In addition, the principal investigator must be one of the following:

(a) a political science faculty member at a college or university that does not award a PhD in political science.

(b) a political scientist not affiliated with an academic instititution.

Funding

Grants will be awarded annually by the Committee on Research Support. The Council has made $15,000 available for 1994 research grants. Individual grants will not exceed $1,500 and are not renewable.

Funds may be used for such research activities as: travel to archives; travel to conduct interviews; administration and coding of survey instruments; and purchase of data sets. This list is merely illustrative, but specifically excluded from funding are: travel to professional meetings; secretarial costs except for preparation of the final manuscripts for publication; and salary support for the principal investigator.

Format

Proposals should be no more than five pages (single-spaced) with a title page listing: name, title of project, current affiliation , and amount requested. Proposals must have a budget, budget justification, and curriculum vitae attached. Proposals must address all items under the scope of award and indicate the precise purpose for which the requested funds will be used. Any financial support the principal investigator is already receiving or anticipates receiving should be specified in the proposal.

Eight (8) copies of the proposal with accompanying budget and curriculum vitae should be submitted to:

OVERVIEW

In September 1992, the 1992-93 questionnaire was mailed to the 1,287 departments offering political science in four-year colleges and universities in the United States. There were 653 valid questionnaires returned, for an overall response rate of 51 percent. Ph.D. departments responded at a rate of 77 percent; masters departments at 81 percent; undergraduate political science departments at 50 percent; and undergraduate social science and combined departments at 33 percent.

This report includes a summary weighted by size and type of institution in order to reflect the universe of political science departments in four-year and graduate institutions.

Following this, data are summarized for all respondent departments (N=653) and then for each of seven subsets for departments identified by program and size.

Ph.D. departments with 21 or more faculty . . . . . (N=49)
Ph.D. departments with 20 or less faculty . . . . . (N=53)
Masters departments with 11 or more faculty . . . . . (N=59)

NUMBER AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate Assistants - TA's and RA's - have not been counted.

NUMBER AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate Assistants - TA's and RA's - have not been counted.

NUMBER AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate Assistants - TA's and RA's - have not been counted.

NUMBER AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate Assistants - TA's and RA's - have not been counted.

NUMBER AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate Assistants - TA's and RA's - have not been counted.

NUMBER AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate Assistants - TA's and RA's - have not been counted.

NUMBER AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate Assistants - TA's and RA's - have not been counted.

NUMBER AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate Assistants - TA's and RA's - have not been counted.

NUMBER AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate Assistants - TA's and RA's - have not been counted.

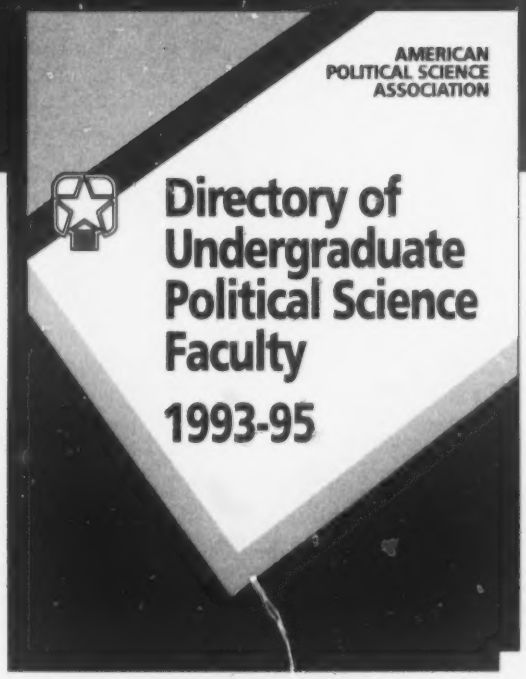
Looking for Political Scientists in Colleges?

You'll find them in APSA's

1993-95 Directory of Undergraduate Political Science Faculty



The fourth revised edition of the **Directory** identifies political science departments and faculty at colleges in the United States whose highest degree is the bachelor of arts. Each faculty member is listed with rank, highest degree, and fields of specialization.

The **Directory** is a companion to APSA's **Graduate Faculty and Programs in Political Science**. **Graduate Faculty** lists departments and the faculty who teach undergraduate and graduate students at universities conferring a B.A. and an M.A. or both M.A. and Ph. D. in political science. It provides information on entrance requirements, tuition, and financial aid, as well as brief program descriptions.

Both books are important references for advising students and locating political scientists for professional activities.

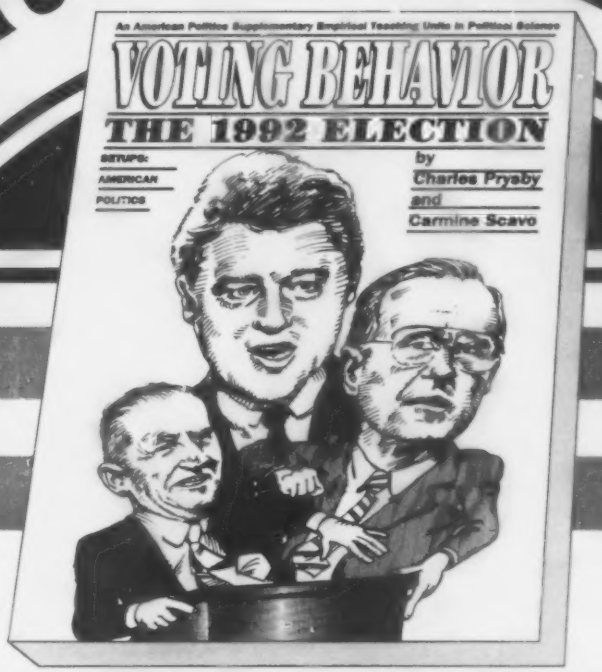
The SETUPS on the 1992 Election



Since the publication of the first SETUPS — for the 1972 Election — Supplementary Teaching Units in Political Science have been widely used in political science courses. Now, there is a SETUPS on the recent presidential election. Voting Behavior: The 1992 Election by Charles Prysby and Carmine Scavo can enable students to learn how to conduct research on voting behavior.

The SETUPS consists of a monograph and a data set. The monograph combines a discussion of the 1992 election campaign and outcome with instructions on how to analyze the voting behavior of the American electorate. Students are able to do secondary analyses using a data set from the 1992 National Election Study. A code book for the data set that includes marginals is in the monograph.

The data set is distributed by the Inter-University Consortium for Political and Social Research (ICPSR), and is available in two versions: for main frame computers or IBM compatible PC's. The data set is sent free of charge for any order of 25 or more copies of the SETUPS. Price: $8.75 each with a 20% discount on bookstore orders of 25 or more copies.

Still available: **Voting Behavior: The 1988 Election.** Use both SETUPS to enable students to compare these national elections in terms of the demographics, party identification, policy, and candidate preferences of American voters. *Order both SETUPS for $13.75*

Reaching Those Who Teach Teachers:
Defining the Core of Constitutionalism, Citizenship, and Civic Education
A Summer Institute for College and University Faculty
June 12 - July 10, 1994
University of Tulsa

The summer institute, a project of the American Political Science Association and the University of Tulsa, is supported by a major grant from the National Endowment for the Humanities.

The Program

The summer institute is an innovative effort to tackle the problem of how to enhance the quality of teaching about constitutionalism, constitutional history, civic education, and citizenship for college students who will enter the ranks of the teaching profession. Seminar topics include: "The Nature of American Constitutionalism," "The Colonial and Early American Background of the Constitutions and the Bills of Rights," "The Scope of Individual Rights," "The Guarantees of Equal Rights and Liberties to All Americans," and such other topics as freedom of expression and separation of church and state. The institute addresses these topics by concentrating on both content and pedagogy, exploring the various ways in which the central messages of the history of the Constitution and constitutionalism can be most effectively presented in order to heighten understanding about citizenship.

The Faculty

Institute Director:
Kermit L. Hall,
Dean, Henry Kendall College
University of Tulsa

Guest Faculty:
Herman Belz, *University of Maryland*
Lief H. Carter, *University of Georgia*
Donald S. Lutz, *University of Houston*
Sandra F. VanBurkleo, *Wayne State University*

Participant Eligibility

The institute seeks applications from teams of college faculty drawn from history, political science, and social studies education. Each team should include two persons, one of whom must be a social studies education professor accompanied either by a historian or political scientist from the same institution. The faculty teams will be responsible for developing and coordinating the content and methodology of courses designed in their institutions to prepare pre-collegiate teachers to teach American history, civics, and government. Applications will also be considered from individual faculty who are committed to strengthening the training of pre-college teachers and will work with colleagues at their institutions after the summer institute to do so.

Participant Stipends

Participants will receive funds for travel to and from the institute, for room and board, and a stipend of $1,125.

Application Procedures

Faculty applying as a team should send a joint letter of application accompanied by each applicant's resume. The letter should indicate which courses offered by the faculty are required or recommended to students who will be teachers and how the faculty believe the institute can contribute to the design of courses and to coordinating teacher training. Individual applicants should also send a resume and letter with the same information as well as description of how they expect to work with colleagues responsible for teacher education to adapt materials from the summer institute in their institution's courses for future teachers.

Application deadline is March 1, 1994. Applications and inquiries should be directed to: Summer Institute/Constitutionalism, APSA, 1527 New Hampshire Ave., NW, Washington, DC 20036. Fax: (202) 483-2657. Telephone: (202) 483-2512.
